Career Objective

Hands-on professional with 13+ years in demanding field environments across Iraq, Antarctica, and U.S. transportation. Strong visual instincts, situational awareness, and the ability to work safely and independently on active job sites. Transitioning into media content creation with a focus on drone and camera work to support project documentation and marketing.

Media Skills

Experience with the Lumix G85 and DJI Mini 3 capturing progress shots, before/after sequences, aerial overviews, and candid field work. Familiar with Lightroom and beginner-level video editing. Comfortable planning simple shot lists and managing large volumes of digital files.

Field Strengths

Thirteen years in high-risk and remote environments with strong safety discipline, PPE familiarity, and solid situational awareness. Comfortable working independently on active job sites and communicating clearly with field teams. Adaptable to weather, lighting, and changing site conditions with a practical, problem-solving mindset. Previously held OSHA certification and still follow the same safety principles and best practices in my field work

Professional Experience

Class A Truck Driver / Tow Operator — 13+ Years

Worked independently in unpredictable, high-pressure environments. Documented incidents with photos, coordinated with dispatch and field teams, and maintained strict safety protocols.

Civilian Contractor — Iraq & Antarctica

Operated in extreme environments requiring precision, adaptability, and reliability. Supported mission-critical operations and developed strong field instincts.

Equipment

Lumix G85 • DJI Mini 3 • Tripod & mounts • Editing-capable laptop

Education

Pursuing FAA Part 107 Drone License

Cybersecurity Boot Camp — NCSU

Associates Automotive industries -- UTI
